SUMMARY

Frontend developer with 6+ years of experience across start-up and corporate environments, building and maintaining large-scale web applications from the ground up. Specialized in Angular and TypeScript, with a strong focus on reusable components, accessibility (WCAG/ARIA), API integration, and unit testing. Experienced delivering features for enterprise platforms serving hundreds of thousands of users in Agile teams.

EXPERIENCE

EPAM

2021 Dec — Present

Software Engineer

Global software engineering and consulting company. Delivered frontend work across three enterprise client engagements:

- Sportingbet (Core stream): built features and fixed bugs on a responsive sports-betting platform serving 700,000+ customers across 26 countries and 10+ brands; modernized legacy code to current Angular (v20) with TypeScript and BEM.
- Wolters Kluwer — CT Corporation hCue: developed accessible, reusable UI components to Design System standards across a multi-repo codebase, enforcing WCAG compliance with NVDA/ARIA; built REST API integrations via Node.js with full Jasmine coverage gated by SonarQube in Azure CI/CD (Angular v18, NgRx, RxJS).
- Thomson Reuters — HighQ: built the Custom Pages module, a drag-and-drop panel system with responsive lazy loading for modular dashboards; integrated backend APIs for real-time data and migrated legacy AngularJS to modern Angular within a shadow-DOM architecture.

Pragmatix Agency

2017 Jun — 2021 Dec

Frontend Web Developer

Start-up-style agency turning client ideas into digital products.

- Worked on a cancer-treatment fundraising application from the ground up with Angular 2+, replacing a legacy system; implemented user forms, API integration, and mobile-responsive pages to UI/UX specs.
- Worked on a hiring platform with work logging and time tracking — Angular frontend, Laravel/PHP/MySQL backend; gained backend experience with multi-table data, calculations, and schema migrations.

Big Brain

2017 Apr — 2017 Jun

Intern

- Learned the codebase, got acquainted with the company's products, and handled various daily development tasks.

EDUCATION

Jean Moulin Lyon 3 / French University in Armenia

2009 — 2015

Bachelor's Degree in Management — Economics, Finance, Accounting, Statistics

Microsoft Innovation Center Armenia

2016 — 2018

Advanced JavaScript & Front-end Web Development — HTML, CSS, JavaScript, jQuery

SKILLS

Technical: Angular (2+ to v20), TypeScript, JavaScript, RxJS, NgRx, HTML/SCSS, BEM, Node.js, Express, REST APIs, Jasmine, WCAG/ARIA, PHP/Laravel, SQL, Git, CI/CD (Azure, Jenkins)

Practices: Responsive development, Accessibility, Agile/Scrum, Unit testing, Problem solving

Languages: English (Excellent), French (Good), Russian (Fluent), Armenian (Native)
